- Social Media
- Print Media / Advertising

Call Center

Janet Thompson & Val Lumer

- Janet is the Manager of the Call Center. She oversees and assists with all of its operations.
- Val is the Marketing Manager and she also assists with daily call center operations.

Why Is It Important?

- Utilizing the services of the call center will allow you to focus on showing up for each customer and making the sale - fewer phone calls to make and take!
- While you are *always responsible* for knowing what is currently on your calendar/schedule, Janet and Val are there to handle the scheduling for you! Additionally, they prepare your digital paperwork, and handle many customer questions for you.

Local Shows

Participating in local Home Shows is a great way to develop leads.

Meet customers face to face - the perfect way to sell yourself and Perma Treat Services!

The Call Center will assist you with follow up. They will reach out to potential customers who offered contact information, but did not schedule at the show.

(The Home Show pictured here cost only \$100, but resulted in numerous jobs!)

Revenue Media

Revenue Media is the Search Engine Optimization (SEO) service that we use to create better visibility for our website and your landing page.

By partaking in their service monthly, your individual landing page will populate on the first page of results in Google searches.

For example, searching “Clean Seal Granite Boise, ID” on Google populates Perma Treat on the first page of results, making us easier to find among competitors!

Revenue Media takes “keywords” such as granite, tile, stone, floors, counters, bathrooms, etc. to generate search phrases on Google. These searches are then linked to the services listed on the Perma Treat website.

Additionally, these search phrases are rotated, updated, paused, and reactivated on a regular basis, based on performance.

This is where **daily webpage updates** come into play! The more often you have content added and updated, the better your search results will be!
